

## HP Education Services—Data Center Portfolio

Optimize your data center resources to energize business growth

### Overview

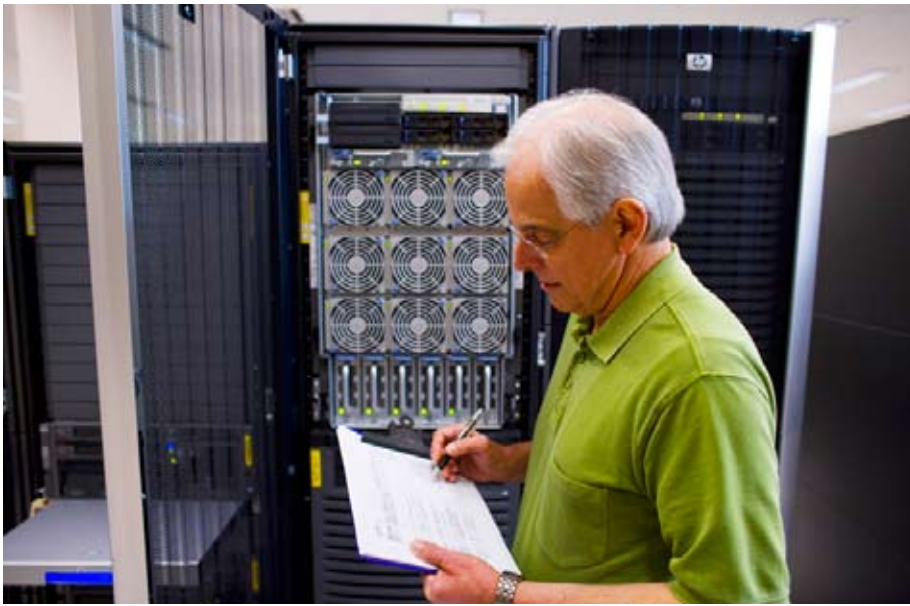

- Drive improvements as well as cut costs in your data center
- Decrease downtime and errors; and step up the success rate of IT initiatives
- Increase staff and data center productivity to achieve better business outcomes

Rely on education services from HP to help you optimize your data center while accelerating growth and controlling risks

An opportunity exists to better the efficiency of your data center. HP can enable you with a holistic approach to training.

### What we offer:

- **Optimized Data Center Simulation:** Set in the context of the “high octane” world of motor racing, this program will lead you to experience the business benefits that increased collaboration and process integration between “Facilities” and “IT” can bring your DC operations.
- **Education services from HP:** We offer a robust selection of technical and service management training for all aspects of your data center.
- **Facilities content for managers:** Courses are designed to improve technology integration with processes that result in greater staff collaboration and productivity.

With this comprehensive training portfolio, we can help you get the most out of initiatives to virtualize your data center environment, optimize the use of facilities including energy and space, and improve business continuity. As a result of the training, you can achieve substantial benefits such as:

- Decreased operational costs for the data center
- Improved return on IT investment
- Improved collaboration among data center facilities managers and IT staff
- Reduced risk and enhanced ability to respond to issues
- Increased quality, predictability, and reliability of IT resources

By training your staff on optimizing your technology as well as business resources, you can enable higher data center operational and mechanical reliability—resulting in better quality of IT services and enhanced business confidence in IT support.

## Why choosing HP makes sense

At HP, we work closely with leading technology companies, software vendors, and consulting firms to bring you complete, integrated solutions that address all aspects of the data center—from technology to processes. We have also leveraged mission-critical and data center services from EYP Mission Critical Facilities (MCF), now an HP company, to compliment our curriculum.

Having one of the world's largest data center infrastructures, we use our learning from it to evolve our portfolio and differentiate ourselves in the marketplace in terms of knowledge, training delivery, and innovative methodologies.

### Expert knowledge

We can be your one-stop-shop for content and training in HP products, related topics, and industry-standard technologies, backed by 30 years experience, unmatched product expertise, and knowledgeable instructors with hands-on experience.

### Delivery excellence

We offer flexible learning options, with online virtual labs, self-study, classroom, and onsite training. This approach is designed to give you the same high-quality experience whether you travel to a training center, learn online, or attend the instruction at your location. HP has more than 90 education centers worldwide, offering state-of-the-art classrooms with courses delivered in multiple languages.

### Innovation

We have imbibed a culture of continuous innovation to bring you cutting-edge courses, advanced learning methodologies, and innovative training technologies.

Courses currently available from HP

**Compliance, Service Management, and Governance—ITSM/ITIL**

- Foundation, Foundation Bridge, and Managers Bridge courses
- Capability courses
- Life Cycle courses

**Business Analysis and Project Management**

- Project Management Fundamentals and Awareness
- Advanced Project Management Areas
- IT Project Management
- Business Analysis

**Local Area Networks (LAN) and HP ProCurve**

- Fundamentals
- Security
- Management
- Advanced topics

**Storage Area Networking (SAN) and SAN Solutions**

- Storage Virtualization
- Storage Systems Management
- Storage Networking
- Data Protection Solutions

## Platforms

- HP BladeSystem
  - HP ProLiant BladeSystem c-Class
  - HP Integrity BladeSystem c-Class
  - HP Integrity NonStop BladeSystem
  - HP Blade Workstation
  - HP Blade PC
- HP ProLiant
  - Insight Control Environment (ICE)
  - ProLiant Essentials training
- HP NonStop
  - Application design and development
  - Data communications
  - Server system support
  - Systems and operations management

## Virtualization

- VMware
  - Infrastructure
  - Capacity planner
  - Virtual desktop
  - View essentials
  - Site recovery
- Microsoft—see Microsoft curriculum below
- HP VSE—courses in HP-UX and ProLiant

## Operating Systems

- HP-UX
  - HPUX core and transition System Administration Courses
  - Hardware and partitioning training
  - High availability, security, and performance
  - Virtualization management
  - Developer and end user courses
- HP OpenVMS
  - HP OpenVMS system manager
  - HP OpenVMS system programmer

- HP Tru64
  - HP Tru64 system manager
  - HP Tru64 advanced system manager
  - HP Tru64 experienced UNIX professionals
  - HP Tru64 programmer
  - Migration to HP-UX for system managers
- Linux
  - Linux system administrator
  - Linux end-user
- Microsoft
  - Microsoft developer courses
    - o Visual Studio .NET and .NET Framework
    - o Microsoft server products and related technologies
  - Microsoft server products
    - o Microsoft Windows Server
    - o Microsoft SQL Server
    - o Windows Vista
    - o Microsoft Exchange Server
    - o SharePoint Products and Technologies
    - o System Center Family
  - Microsoft Office Systems
    - o SharePoint Products and Technologies
    - o Microsoft Office Systems
  - HP related products
    - o Microsoft Windows for HP Integrity/Superdome Servers
    - o Microsoft Windows for HP ProLiant Servers
