

# Citrix Systems XenServer 5.0 Training

Increase your competitive advantage by maximizing your organization's ability to implement and run XenServer 5.0 while decreasing the dependence on external consultants. Education on Citrix from HP provides IT professionals the tools they need to help their organizations successfully adapt to change without changing their overall environment.

### Overview

- Update your skills and knowledge with the latest technologies in virtualization
- Prepare your administrators for the CCA certification; get in-demand industry credentials, increase marketability and value to your business.
- Improve business results and employee morale while increasing productivity from your Citrix XenServer investment: choose HP as a partner for your education and training efforts.
- Citrix training contributes to an enhanced ROI for organizations by
  - Contributing to higher productivity
  - Decreasing downtime
  - Reducing consulting and support costs

- Citrix training contributes to an IT professional's career by
  - Improving work performance
  - Enhancing credibility
  - Increasing marketability and value

### The virtualization challenge

IT organizations are challenged to improve resource utilization, decrease costs, strengthen security, improve reliability and become more responsive to rapidly changing business needs. Most companies have recognized that virtualization can help meet their objectives, but they have not been able to reap most of the benefits of going virtual. This is mainly because companies have been unable to provide the right training to their staff and leverage the expertise of administrators and other IT professionals.

What companies need is a combination of the right people with the right skills and expertise to manage the new potential promised by virtualization. It's not enough to just have the hardware and software. Education about the technology is of equal importance.

HP Education Services can prepare you for the Implementing Citrix XenServer Enterprise Edition 5.0 certification exam which validates the breadth of knowledge attained from our courses. The subjects for the exam include: understanding virtualization, pre-deployment planning, installation, creating and managing virtual machines, determining storage, working with pools, supporting and utilizing of the XenServer Command Line Interface.

## The service offering

HP Education Services provides training on Citrix software to enable you to get the most out of your HP Citrix XenServer investment. If you are an IT professional, system architect, or system engineer, you would benefit from this course.

The Citrix XenServer course covers information administrators need to successfully deploy and manage the XenServer client. This 2-day course is offered through several modalities including RAIL (Remotely Assisted Instructional Learning) and ILT (Instructor-Led training).

The course covers information needed to successfully deploy and manage XenServer Enterprise Edition 5.0 and the XenCenter management client. It includes hands-on labs where students install and configure a virtualization server and then connect to the server with XenCenter. Students can then create a mix of Windows and Linux virtual machines. They can proceed to create a XenServer resource pool and connect to remote storage. This allows them to explore advanced XenServer capabilities such as XenMotion and Automatic VM placement.

This course helps prepare students for the Citrix exam A01, Citrix XenServer Enterprise Edition 5.0: Administration, which is required to obtain the Citrix Certified Administrator for Citrix XenServer 5.0.

HP is not a CALC (Citrix Authorized Learning Center); instead we are a global affiliate for training to Citrix. With 30 years experience and expertise in course design and delivery, we offer more than a basic Learning Center can.

HP has unrivaled expertise and experience in training, and this course can greatly enhance business success and increase ROI on Citrix XenServer. HP Education Services can train your workforce to harness the full power of XenServer virtualization.

## Why HP education services: a global affiliate of Citrix

- 30 years as a world leader in customer training
- More than 80 training locations worldwide
- Comprehensive student materials
- State-of-the-art classroom facilities
- Focus on job-specific skills
- Customized onsite delivery
- Experienced and best-in-the-field HP instructors
- Hands-on practice
