

Project Management for Business Technology

HP Education Services

Project Management training for better business results

IT no longer supports the business, it powers the business and IT results are measured in only one way: business outcomes. According to research conducted by the Project Management Institute in 2006, 47% of projects did not finish within the initially scheduled time and 45% did not finish within their initial budget. If your IT projects are not coming in on-time, on-budget and on-target or don't support your organization's objectives, you can not get the most from your IT investments and the business can suffer.

The business results desired only come when you focus not just on leading edge technologies, but also on the skills of your people and well aligned business processes. Excellent project management skills in your IT team can help you to accelerate business growth, lower costs and mitigate risks.

As part of the HP Service Management training portfolio, which also includes ITIL and Business Analysis training, we offer a wide array of Project Management courses from fundamental—featuring our fun and unique Race-to-Results PM Simulation—to more advanced courses on leading project teams and building a Project Management Office (PMO).

Why choose HP for Project Management training

No other organization brings the depth of project management experience combined with the breadth of training expertise as HP. We complement our project management expertise with a complete curriculum of project management courses using varying learning modalities, including a complete series of certified instructor-led courses; online courses and reference tools.

- Leader in Industry Best Practices (e.g. PMO, Project Management, ITSM)
- Integrated Service Management training portfolio including Project Management, Business Analysis and ITSM (ITIL)
- 3500+ Project Management Professionals (PMP®) certificants
- 30+ years providing a range of education services worldwide
- Training of over 200,000 people across all disciplines every year
- Over 650 scheduled courses in various disciplines, over 2000 self-paced online courses, and the flexibility to customize training as needed
- 1,500 professional instructors
- Over 90 training locations worldwide

Prepare for better business outcomes with these courses

Aligning IT to meet business objectives

The role of IT in business is changing. Where IT was once a cost—an arcane but necessary collection of expensive boxes and people who spoke a language of their own—now it is increasingly recognized for the value it can create. HP offers products, services and training that can help you to transform your IT organization from a traditional, IT-centric technology supplier into a reliable, agile, low-cost IT service provider. In addition to a full curriculum on Project Management, we offer training on Business Analysis and ITIL v3 to make sure that your IT projects and operations are aligned with your business needs across the lifecycle.

Professional Certifications

Project Management Institute® Registered Education Provider (REP)

HP is a PMI Global Registered Education Provider (REP) and, as such, HP project management courses satisfy the requirements for Project Management Professional (PMP®)* and Certified Associate in Project Management (CAPM®)* contact hours. Come to HP for training to achieve your certification or for acquiring recertification Professional Development Units (PDUs).

Prepare for PMI®'s PMP® certification exam by developing a wide range of project management skills and best practices through HP's comprehensive training curriculum. You are required to verify at least 35 contact hours of specific instruction that addresses learning objectives in project management to apply for PMP certification.

Our courses can prepare you for PMI's CAPM®¹ certification exam also. You are required to verify at least 23 contact hours of specific instruction on learning objectives in project management to apply for CAPM® certification.

For more details on PMI certification, visit www.pmi.org

APMG PRINCE2 Certification

Gain a solid understanding of the widely accepted PRINCE2™ methodology from the Office of Government Commerce, U.K. Where available, HP offers training courses that help you prepare for PRINCE2 Foundations and Practitioner certifications administered by the APM Group. Managing Successful Programmes (MSP™) and Management of Risk (M_o_R™) courses are also available.

For more details on PRINCE2 certification, visit www.prince2.org.uk

International Institute of Business Analysis (IIBA) Endorsed Education Provider (EEP)

Projects frequently fail due to misalignment with the organization's business requirements. Professionally executed business analysis that is integrated into the project management process helps to raise the probability that IT projects will effectively benefit a business organization.

HP's Business Analysis curriculum provides business analysts and related professionals with the knowledge and skills critical to identifying business needs and determining solutions. As an IIBA Endorsed Education Provider, HP's Business Analysis curriculum is consistent with the IIBA Business Analysis Book of Knowledge (BA BOK®).

For more details, visit www.theIIBA.org

Delivery excellence

HP has the ability to effectively deliver training in every medium including traditional classroom, on-site, instructor-led e-learning and self-paced courses.

- Classroom training—as part of our open enrollment
- Training at your site for your team
- Online: self-paced and instructor-led training
- Innovative learning modalities including gaming and simulations
- Printed job aids, like white papers and books
- Customized education

... and the expertise to know which delivery methods are most appropriate for a particular learning and business need.

Flexible purchase options

Whether you purchase your training at the time you acquire new hardware or software, when you move to a new operating system or renew a service contract, or whether it is part of ongoing staff development, HP offers several purchase options to help you manage your training budget. You can select from a variety of job or project focuses courses which can be ordered

individually or—to get outstanding value and the most flexibility—you can purchase HP Care Pack Total Education. This prepaid, packaged service, available directly through HP or from your reseller, can be used for any of our scheduled courses offered at HP education centers, online live or self-paced courses or customized training at your location. HP Care Pack Total Education provides the ultimate in flexibility and savings for the entire HP education portfolio of over 3000 courses.
